

Julien Garsia

Software Engineer

As a graduate student at Epitech Paris, I have acquired strong technical skills through my studies in computer science and software engineering.

These technical skills include proficiency in programming languages such as JavaScript, C++, Python, Golang as well as experience with software development frameworks and tools such as Git and Docker.

I am excited to apply my technical expertise in a permanent position as I conclude my studies, starting in March 2024.

Education

From Sept. 2022
to July 2024

Epitech - Programme Grande École / EPITECH Paris

- Year abroad in Italy, studying AI and computer science
- Developing SafeCall

From Sept. 2018
to July 2022

Bachelor / EPITECH PARIS

- During my Bachelors in Information Technologies, I learned the basics of C and C++
- I learned how to use Git, how to work efficiently in team.
- I also learned how to build app in Flutter and website in ReactJS and NodeJS / Golang.

Professional Experiences

From Sept. 2023
to Feb. 2024

Fullstack Developer / Meta Football League Boulogne-Billancourt

- Project developement, from boilerplate to deployment of an application to generate photorealistic pictures using AI
- Skills : Next.js, Typescript, Vercel, Stable-Diffusion
